20 Do you have exchange services in place to protect against currency fluctuation?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Now total the number of **RED** and **YELLOW** answers you have ticked

### 0 to 3 RED Answers

You don't have too much to worry about but review the red answers you do have and check you are prepared. There is a lot of support available and much of it fully funded, especially for smaller businesses. Visit [www.business-resilience.uk](http://www.business-resilience.uk) for more information and to register to see an advisor who will also be able to signpost you onto further sources of specialist advice and guidance.

### 4 or more RED Answers

You should develop a contingency plan NOW to ensure you have everything in place by the end of the year. Focus first on the areas where you have selected a RED answer, and then check the details on the answers where you were unsure if this applies to you, or you simply do not know. Support to help you put a plan in place is available through [www.business-resilience.uk](http://www.business-resilience.uk), and there is additional support available from the Business Growth Hub. We can also signpost you to specialist sources of advice and guidance, for example the Chamber of Commerce who can provide guidance on export documentation. There is a lot of support available and much of it fully funded, especially for smaller businesses, but it is vital that you start to plan now as some things take time to organise.

### Answers where you have selected YELLOW

Review each of your ? answers to identify if they need to be red or green - then recalculate your totals. Support is available to help you do this and to identify if you need a contingency plan. We recommend you act NOW as some things take time to organise.
